

The American Journal of
CLINICAL NUTRITION

VOLUME 29 NUMBER 1 JANUARY 1976

CONTENTS

editorial

- 1 Natural resources and population dynamics. *R. H. Herman*

letters to the editor

- 2 The world food crisis. *J. E. Rohde*

original communications

- 3 Functional significance of growth retardation in malnutrition. *V. Reddy, V. Jagadeesan, N. Ragharamulu, C. Bhaskaran, and S. G. Srikantia*
- 8 Sugar as a vehicle for iron fortification. *M. Layrisse, C. Martínez-Torres, M. Renzi, R. Velez, and M. González*
- 19 Lactose malabsorption in Mexican-American children. *C. E. Woteki, E. Weser, and E. A. Young*
- 25 Blood volume (^{51}Cr) in severe protein-calorie malnutrition. *P. Viart*
- 38 Nitrogen balance and calorie efficiency in small-for-date dwarfism. *I. Krieger and C. R. Whitten*
- 46 Upper arm anthropometric indicators of nutritional status. *R. Martorell, C. Yarbrough, A. Lechtig, H. Delgado, and R. E. Klein*
- 54 The effects of dietary fatty acids and cholesterol on the milk lipids of lactating women and the plasma cholesterol of breast-fed infants. *J. M. Potter and P. J. Nestel*
- 61 Anthropometric evaluation of the body composition of black, white, and Puerto Rican newborns. *F. E. Johnston and A. Beller*
- 66 Liver storage iron in Canadians. *B. Shah and B. Belonje*

(continued on inside cover)

(continued from back cover)

- 70 A prospective study of serum copper and zinc levels in patients receiving total parenteral nutrition. *C. R. Fleming, R. E. Hodges, and L. S. Hurley*
- 78 Growth and nitrogen retention of children consuming all of the day's protein intake in one meal. *W. C. MacLean, Jr. and G. G. Graham*

comments in gastroenterology

- 87 Low fiber content of Connecticut diets. *S. H. Dorfman, M. Ali, and M. H. Floch*

perspectives in nutrition

- 90 Hypothesis: energy wastage in alcoholism and drug abuse: possible role of hepatic microsomal enzymes. *R. C. Pirola and C. S. Lieber*

nutrition survey

- 94 Nutritional status of a population sample in Macon County, Alabama. *J. Prothro, M. Mickles, and B. Tolbert*

nutrition education

- 105 Nutrition education in the medical school curriculum: a proposal for action: a curriculum design. *R. T. Frankle*

international nutrition

- 110 The effect of massive doses of vitamin A on the signs of vitamin A deficiency in pre-school children. *D. P. Sinha and F. B. Bang*
- 116 Xerophthalmia and blindness in Northeast Brazil. *W. K. Simmons*

123 nutrition news

124 book review

The American Journal of
CLINICAL NUTRITION

VOLUME 29 NUMBER 2 FEBRUARY 1976

CONTENTS

letters to the editor

- 125 Fiber, blood lipids, and heart disease. *K. W. Heaton*

original communications

- 127 Relationship between Intralipid-induced hyperlipemia and pulmonary function. *H. L. Greene, D. Hazlett, and R. Demaree*
- 136 Effects of a low-protein diet during pregnancy of the rhesus monkey. I. Reproductive efficiency. *M. B. Kohrs, A. E. Harper, and G. R. Kerr*
- 146 The bound carbohydrates of fractionated serum proteins in protein-calorie malnutrition. *R. H. Maghrabi and C. I. Waslien*
- 151 Effects of physical activity on weight reduction in obese middle-aged women. *S. Lewis, W. L. Haskell, P. D. Wood, N. Manoogian, J. E. Bailey, and M. B. Pereira*
- 157 Resistance of intestinal triglyceride transport capacity in the rat to adaptation to altered luminal environment. *A.-L. Wu and S. Bennett Clark*
- 169 Idiopathic enteropathy: an evaluation in rural Iran with an appraisal of nutrient loss. *K. Nasr, P. Haghighi, P. Abadi, A. Lahimgarzadeh, H. Hedayati, J. A. Halstead, and J. D. Reinhold*
- 177 Effect of vitamin B₆ on leucine-induced changes in human subjects. *K. Krishnaswamy, S. B. Rao, T. C. Raghuram, and S. G. Srikantia*
- 182 Folic acid absorption in regional enteritis. *C. D. Gerson and N. Cohen*
- 187 Cholesterol contents of various tissues of chickens with exogenous or endogenous hypercholesteremia. *K.-J. Ho*
- 192 Relationship of lactose intolerance to milk intolerance in young children. *C. Garza and N. S. Scrimshaw*
- 197 Zinc deficiency in two infants during total parenteral alimentation for diarrhea. *T. Arakawa, T. Tamura, Y. Igarashi, H. Suzuki, and H. H. Sandstead*

comments in gastroenterology

- 205 Intestinal phase of protein assimilation in man. *S. A. Adibi*

(continued on inside cover)

(continued from back cover)

nutrition survey

- 216 The school health service as a means of entry into the inner-city family for the identification of malnourished children. *R. J. Karp, M. Nuchpakdee, J. Fairorth, and J. M. Gorman*

international nutrition

- 219 Iron absorption from Southeast Asian rice-based meals. *Aung-Thun-Batu, Thein-Thun, and Thane-Toe*

reports of meetings

- 226 Excerpts from the Xth International Congress of Nutrition Meeting. *H. E. Sauberlich*
229 Report of the second meeting of IUNS Committee V/11: Nutrition Education in Nursing

232 book reviews

233 annual meeting announcement

234 announcements

The American Journal of
CLINICAL NUTRITION

VOLUME 29 NUMBER 3 MARCH 1976

CONTENTS

letters to the editor

- 235 Zinc deficiency. *S. Gupta*
235 Bioavailability of folate. *N. Colman and V. Herbert*
235 Reply to Drs. Colman and Herbert. *E. W. Nelson, J. J. Cerda, and R. R. Streiff*
237 Plasma lipid changes in young adult couples consuming polyunsaturated meat and dairy products. *R. Reiser*
237 Safe protein/calorie ratios in diets. *P. R. Payne*
240 The race difference in hemoglobin level in chronic renal failure patients. *S. M. Garn, S. Stinson, and G. H. Mayor*

original communications

- 242 Copper, iron, and zinc contents of mature human milk. *M. F. Picciano and H. A. Guthrie*
255 The role of Intralipid in prolonged parenteral nutrition. I. As a caloric substitute for glucose. *J. W. Broviac, M. C. Riella, and B. H. Scribner*
258 Metabolic investigations after xylitol infusion in human subjects. *S. Hauschildt, R. A. Chalmers, A. M. Lawson, K. Schultis, and R. W. E. Watts*
274 Sugar as a vehicle for iron fortification: further studies. *M. Layrisse, C. Martínez-Torres, and M. Renzi*
280 Human protein requirements: the effect of variations in energy intake within the maintenance range. *C. Garza, N. S. Scrimshaw, and V. R. Young*
288 Cyclic variations in folate composition and pteroylpolyglutamyl hydrolase (conjugase) activity of the rat uterus. *C. L. Krumdieck, L. R. Boots, P. E. Cornwell, and C. E. Butterworth, Jr.*

(continued on inside cover)

(continued from back cover)

comments in gastroenterology

- 295 Conditions affecting the biosynthesis of lipids in the small intestine.
C. M. Mansbach II

methods in nutrition

- 302 A nomograph method for assessing body weight. *A. E. Thomas, D. A. McKay,
and M. B. Cutlip*

international nutrition

- 305 Nutrition, infant behavior, and maternal characteristics: a pilot study in West
Bengal, India. *P. L. Graves*

320 book reviews

- 322 Program, Sixteenth Annual Meeting ASCN**

The American Journal of
CLINICAL NUTRITION

VOLUME 29 NUMBER 4 APRIL 1976

CONTENTS

letters to the editor

- 327 Chloramphenicol metabolism in children with PCM. *N. Buchanan, J. D. L. Hansen, L. A. Van der Walt, R. Robinson, and H. J. Koornhof*
- 328 Models for protein deficiency: rejoinder to Drs. Corey and Beaton. *P. V. Sukhatme*
- 330 Pathogenesis of lipidosis. *U. Freud, Y. Krausz, I. S. Levij, and M. Eliakim*

original communications

- 331 Fatty acid composition of margarines. *D. J. Nazir, B. J. Moorecroft, and M. A. Mishkel*
- 340 Amino acid levels across normal forearm muscle and splanchnic bed after a protein meal. *T. T. Aoki, M. F. Brennan, W. A. Miller, J. S. Soeldner, J. S. Alpert, S. B. Saltz, R. L. Kaufmann, M. H. Tan, and G. F. Cahill, Jr.*
- 351 Treatment of children with phenylketonuria using a phenylalanine-free protein hydrolysate (Albumaid XP). *H. K. Berry, B. S. Sutherland, M. M. Hunt, M. H. Fogelson, and D. O'Grady*
- 358 Neocortex development during severe malnutrition in the rat. *M. E. Cordero, G. Díaz, and J. Araya*
- 366 Certain metabolic consequences of jejunoileal bypass. *R. Bendezu, R. G. Wieland, S. G. Green, M. C. Hallberg, and R. W. Marsters*
- 371 Zinc nutrition in celiac sprue. *N. W. Solomons, I. H. Rosenberg, and H. H. Sandstead*
- 376 Availability of folates from some foods. *S. Babu and S. G. Srikantia*
- 380 Parenteral nutrition in the septic patient: nitrogen balance, limiting plasma amino acids, and calorie to nitrogen ratios. *C. L. Long, F. Crosby, J. W. Geiger, and J. M. Kinney*
- 392 Serum and small intestinal immunoglobulin levels in undernourished children. *R. G. Bell, K. J. Turner, M. Gracey, Suhariono, and Sunoto*
- 398 Reversal of experimental essential fatty acid deficiency by cutaneous administration of safflower oil. *H. Böhles, M. A. Bieber, and W. C. Heird*

(continued on inside cover)

(continued from back cover)

comments in biochemistry

- 402 Metabolic abnormalities contributing to diabetic complications. II. Peripheral nerves.
J. W. Anderson

comments in gastroenterology

- 409 Jejunoileal bypass surgery for obesity. *F. X. Pi-Sunyer*

perspectives in nutrition

- 417 Definition of dietary fiber and hypotheses that it is a protective factor in certain diseases. *J. Trowell*

methods in nutrition

- 428 A method for qualitative identification of sugars and semiquantitative determination of lactose content suitable for a variety of foods. *D. F. Lee and C. B. Lillibridge, with the technical assistance of C. S. Brown, K. Drechsler, and B. Fromme*

international nutrition

- 441 Breast milk composition in Ethiopian and Swedish mothers. I. Vitamin A and β -carotene. *M. Gebre-Medhin, A. Vahlquist, Y. Hofvander, L. Uppsäll, and B. Vahlquist*

nutrition news

- 452 Gopalan Oration Award
452 Solimano appointment
455 **Program**, Sixteenth Annual Meeting, ASCN
461 **Abstracts**
487 **Announcements**
492 **Book reviews**

The American Journal of
CLINICAL NUTRITION

VOLUME 29 NUMBER 5 MAY 1976

CONTENTS

letters to the editor

- 493 Clinical symptoms of malnutrition and plasma ascorbic acid levels.
P. Berman
- 494 Reply to Dr. Reiser. *R. E. Hodges, A. F. Salel, and W. L. Dunkley*

original communications

- 496 Evaluation of an isoosmotic tube feeding formula in the diets of convalescent malnourished infants and children. *W. C. MacLean, Jr. and G. G. Graham*
- 502 An evaluation of the use of changes in hair root morphology in the assessment of protein-calorie malnutrition. *A. A. Johnson, M. C. Latham, and D. A. Roe*
- 512 Efficacy of diet and exercise in the reduction of serum cholesterol and triglyceride in free-living adult males. *R. L. Shorey, B. Sevell, and M. O'Brien*
- 522 Protein status of the elderly as measured by dietary intake, hair tissue, and serum albumin. *V. E. Jordan*
- 529 Growth, hemoglobin, cholesterol, and blood pressure observed in rats fed common breakfast cereals. *W. O. Caster and M. P. Parthemos*
- 535 Postprandial plasma triglyceride and cholesterol responses to a low-fat meal. *J. M. Olefsky, P. Crapo, and G. M. Reaven*
- 540 The carbon pathway for lipogenesis in isolated adipocytes from rat, guinea pig, and human adipose tissue. *E. Shrago and T. Spennetta*
- 546 Greater bile acid excretion with soy bean than with cow milk in infants. *J. M. Potter and P. J. Nestel*

comments in biochemistry

- 552 Anorexia-producing intermediary metabolites. *A. Theologides*

comments in nutrition

- 559 Essential fatty acid requirements in infancy. *W. F. J. Cuthbertson*

(continued on inside cover)

(continued from back cover)

- 657 Protein and calorie malnutrition among preschool Navajo Indian children, a follow-up.
J. Van Duzen, J. P. Carter, and R. Vander Zwagg

methods in nutrition

- 663 An automated flavin adenine dinucleotide-dependent glutathione reductase assay
for assessing riboflavin nutriture. *P. J. Garry and G. M. Owen*

nutritional education

- 675 Effect of nutrition education on the nutritional status of low-income pregnant women
of Mexican descent. *I. F. Hunt, M. Jacob, N. J. Ostergard, G. Masri, V. A. Clark, and
A. H. Coulson*
- 685 Announcements
